

Brijraj Mori

I am Brijraj Mori from Bhavnagar. I am currently pursuing B.E. in Information Technology at Gyanmanjari Institute of Technology College. As a computer engineering student, I have acquired technical skills. I have experience in Frontend languages such as Html, Css on various, and also I am good at Project-management and learning new things and improving my skills. Now I am looking for internship or job opportunity.

Courses

- Computer Engineering

11th -12th

Gyanmanjari Vidhyapith higher secondary school.

2018 - 2020

Courses

- science

PROJECT

• Road Pothole Reporter

- Describe the problem of road potholes, including their impact on road safety, vehicle maintenance, and overall transportation infrastructure.
- Discuss the challenges faced by road maintenance authorities in identifying and repairing potholes.
- Clearly state the objectives of the "Road Pothole Reporter" project such as developing a system to enable efficient reporting and management of road potholes.
- Project
- website : <https://brijraj-7.github.io/Road-Pothole-Reporter/>

• Fingerprint voting system

- Fingerprint Based Voting Project is an application where the user is recognized by his fingerprint pattern.
- Since the fingerprint pattern of each human being is different, the voter can be easily authenticated.
- The system allows the voter to vote through his fingerprint. Fingerprint is used to uniquely identify the user. The fingerprint minutiae features are different for each human being.
- Fingerprint is used as an authentication of the voters. Voter can vote for the candidate only once; the system will not allow the candidate to vote for the second time.
